## GIFT VOUCHERS

Looking for gift vouchers? Two big advantages of us supplying gift vouchers is that you do not have to collate all the addresses and you can let them choose their own gift.

We make the process super simple. You tell us the value and quantity. We then create the order and send you an invoice. We supply a file which shows your codes and a pin number which is unique for each code.

Typically we set a 4-6 month expiry date to give them loads of time to order and if ordering in bulk you get a discount as well.

---

## CUSTOMISATION

All of our gifts can be supplied with a personalised greetings message at no extra cost. This can be fully customised by you and sent in with your order.

On some of our products we can offer additional personalisation options. These can include adding items you wish to send in to us such as brochures, business or Christmas cards. This service will be restricted as we get closer to Christmas.

Our food hampers can only be personalised with a message and can't have anything added to them as we pre make these ready for Christmas.

Our PicBox sweet hampers allow you to add a logo or photo and message inside the gift box.

---

## DEDICATED ACCOUNT MANAGER

You will be allocated an Account Manager who will be your dedicated point of contact for all queries from sales to deliveries and payments. You will receive their direct line and email address and they will always be on hand to help you with any questions along the way.

---

## HOW TO ORDER

For small orders of fewer than 10 items it may be easier to order online. Please do contact us for a chat if you have any questions or need help choosing a suitable gift.
